

K Love radio serves me and my family in the Sacramento area. There are few, if any, any family friendly radio stations on the air. It is extremely important for me to be sure my children are listening to wholesome, family oriented entertainment. I feel the local community would suffer if K Love was to be displaced by a LPFM service. Please, there are enough poor influences on our children in the entertainment industry. We try very hard to make sure there are positive influences in their lives. We take personal responsibility of what they read, hear, and see in the media. Reducing yet another family friendly entertainment option for us increases the difficulty of keeping them shielded from the ills of the entertainment industry. Please, find another way or solution to the problem you are encountering. Give the parents who are trying a break by not taking away the ability of KLove to broadcast as they are now.
Thank You, David Elliott
